SAVE UP TO 70% COMPARED TO SIMILAR PROGRAMS

\$1600 | YELLOW BELT

\$2600 | GREEN BELT

Join us for our upcoming **Lean/Six Sigma YELLOW & GREEN Belt Programs** designed specifically for your needs and to impact your organization.

According to U.S. News and World Report, Six Sigma is one of the “Top Five In-Demand Skills,” in the workplace. Why?

- » Immediate ability to apply skills to real life situations- large and small.
- » More efficient operations and greater levels of customer satisfaction.
- » Part of a continuous improvement program for anyone in manufacturing, distribution, warehouseing, and the service industry.
- » Learn how to assemble and participate with project teams.

Why should I enroll in a Yellow or Green Belt program?

- » Coverage of Lean/Six Sigma concepts and application principles.
- » Gain experience by reviewing cases solving real problems in real companies (including a simulated project).
- » Improve your business competencies cross-culturally and internationally.
- » Use PFC-exclusive techniques to convert the Lean/Six Sigma theory to personal practical application and optimal return on your investment.

What you will understand & learn to apply:

1

DMAIC- how to Define, Measure, Analyze, Improve and Control.

2

A wide array of concepts related to process quality improvement.

3

Foundational Six Sigma techniques and statistical methods.

4

PFC's methodology on how to apply the skills you learned in your situations.
